Design for the Limited Rehabilitation of Kunya-Kanya-Babura-Babbanmutum Road

Client: Federal Ministry of Works

Location: Jigawa State

Date: 2005

Design for the limited rehabilitation of a 70 km section of a national highway. The rehabilitation covered improved geometric cross-section and road improvement, traffic and road safety measures. The detailed design involved improved cross-sections and drainage, materials investigation and testing, road pavement strengthening, road signs and markings. Tender and contract documents suitable for procurement of works contract were prepared.
