## Enumeration and Identification of Water Customers.

**Client:** Lagos State Water Corporation

**Location:** Lagos State

**Date:** 1990

- 1- Provision of all details and preparation of a computer based customers file for all properties with existing connections to Lagos State Water Corporation.
  - 2- To devise a codification system assigning a unique number to all properties with existing connections enabling infill development and presently unconnected properties to be similarly identified in the future.
  - 3- The creation of a computer based software to access information contained in the customer file.
  - 4- Establishing the size and location of each water delivery point and mark the points on 1:1000 scale maps or mosaics.
  - 5- Identifying the delivery points with a plate displaying the unique code number.
  - 6- Establishing procedures and forms to update the customer files and provide for new future connections.
- Establishing a skill transfer programme by seconding Water Corporation personnel to participate in the execution of the project.
